

KAM2 CABLE STRIPPER

The Cable Stripper KAM2 allows common round cables of between 28 and 35 millimetres diameter to be stripped accurately, quickly and safely. The cable stripper has an ergonomically-shaped, non-slip handle.

The cutting depth of the blade can be regulated infinitely with the help of an adjustable screw on the end of the handle. This prevents damage to the inner conductor. The blade is integrated self-rotating into the casing, allowing automatic conversion from circular to longitudinal cutting.
