Packaging Unit: 25 / Pack

Featuring a glue lined heatshrink insulation, shrunk onto the wire after crimping

Completely waterproof connection after heat application

Preferred crimping tool: K10/3

## Product Information

### Product Details

## Product Description

Waterproof Splice Red

Waterproof Splices have a glue lined heatshrink insulation, which is shrunk onto the wire after crimping. This gives a completely waterproof connection.

Note: Crimp using standard tooling.
