

A great gang of surrounds

Easily integrate and label your multiple switches and sockets with the 2000 Series Multigang Surrounds

Multigang Surrounds - altogether better

The neatest way to keep your switches and sockets together is with Clipsal 2000 Series Multigang Surrounds.

Available in two and three gang horizontal versions and two, three and four gang vertical versions, they neatly house and fully integrate all 2000 Series gridplates into a single surround.

Horizontal versions are ideal when extra space is required for oversized plugs (note picture below).

For commercial environments with several circuits, Clipsal offers two and three gang horizontal multigang surrounds with provision for Clipsal 2009R Circuit Identification Caps. (See opposite page).

To make installation of the Multigang Surrounds easier, there are a range of Wall Clips, Wall Brackets and Wall Boxes available that are dedicated to each surround. Refer to the back page cross reference chart or your Clipsal representative for more information.

All 2000 Series Multigang Surrounds feature:

- A choice of colours to mix and match with gridplates and contrast or blend with any décor.
- A design that neatly conceals all mounting holes.
- A durable high gloss finish for easy cleaning.
- A clever clip on/clip off design that enables surrounds to be easily removed when redecorating to conceal overpainting or untidy cut marks when wallpapering.
- A spacing gauge to assist with mounting.

Cat. No.	Description
Horizontal Surrounds	
2000H2	Two gang horizontal flush surround
2000H3	Three gang horizontal flush surround
Vertical Surrounds	
2000/2	Two gang vertical flush surround
2000/3	Three gang vertical flush surround
2000/4	Four gang vertical flush surround

Note: Where different wiring systems are terminated within the one enclosure, segregation may need to be provided. Refer AS/NZS 3000 - 2000 Clause 1.7.4.5.3.

2000 Series circuit ID caps in a range of options

Cat. Nos. 2009, 2009R, 2000R, 2000/2R & 2000/3R

With the ever increasing popularity of 2000 Series switch plates in domestic and commercial environments, Clipsal provides a range of low cost circuit ID caps that are as adaptable as the locations in which they are used.

Clipsal's 2000 Series ID caps can be hidden under the 2000 Series surround in situations where the information needs to be accessible but not obvious, or displayed in specially designed 2000 Series surrounds that have pierced apertures for instant circuit identification.

Concealed

Visible

PRODUCT RANGE

Cat. No. 2009

This oval identification cap is located in a 2000 Series grid mounting screw hole and remains hidden behind the clip-on surround. 2009 caps are supplied blank as standard, but are also available to special order with specific identification information.

Cat. No. 2009R

This circular cap is located in a 2000 Series grid mounting screw hole and used in conjunction with an 'R' designated surround. 'R' surrounds have an opening which fits over the 2009R so that the ID cap is always visible. 2009R caps are supplied blank as standard, but are available to special order with specific identification information.

Cat. No. 2000R

The 2000R is a 2000 Series surround with a pierced aperture to suit the 2009R identification cap. Standard configuration is for the apertures to align with the top right or bottom left hand corner of the horizontal gridplate. Other configurations are available to special order.

Cat. No. 2000/2R

This product is a standard 2000 Series two gang surround with two pierced apertures to suit the 2009R identification cap. Standard configuration is for the apertures to align with the top right or bottom left corner of the horizontal gridplate. Other configurations are available to special order.

Cat. No. 2000/3R

The 2000/3R is a standard 2000 Series three gang surround with three pierced apertures to suit the 2009R identification cap. Standard configuration is for the apertures to align with the top right or bottom left corner of the horizontal gridplate. Other configurations are available to special order.

Multigang Surround & Mounting Accessories Cross Reference Chart

	MULTIGANG	WALL CLIPS	WALL BRACKETS & PLATES	WALL BOXES	FIRE RATED WALL BOXES
Vertical Surrounds	2000/2 Two gang vertical flush surround	2154/2	2155P2	2157/2 & 2157/2SB	2157/2F & 2157/2FSB
	2000/3 Three gang vertical flush surround	2154/3	2155P3	2157/3, 2157/3SB1 & 2157/3SB2	2157/3F, 2157/3FSB1 & 2157/3FSB2
	2000/4 Four gang vertical flush surround	2154/4	2155P4	2157/4	N/A
Horizontal Surrounds	2000H2 Two gang horizontal flush surround	2154H2	2155PH2	2157H2	N/A
	2000H3 Three gang horizontal flush surround	2154H3	2155PH3	2157H3	N/A

Note: All Wall Boxes listed can be purchased with or without one or two segregation barriers, when mixing circuits (eg data & power). This is identified in part number by SB & SB1 (includes one segregation barrier) or SB2 (includes two segregation barriers).
