# Power solutions to get away

**CLIPSAL**  
LIVING ELECTRICAL

## Designed for Safety and Performance

Now that you have your "pride and joy" all you need to do is enjoy it. But before you embark on your next adventure ensure the switches and power outlets have been correctly fitted to prevent potential problems or disaster.

Safety was paramount when Clipsal engineered their new 2000 and C2000 Series Double Pole Ranges of powerpoints. They have been specifically designed to minimise the chance of electric shock when electrical accessories have been installed in tight cavity spaces or where electrical supplies are known to vary.

The Double Pole Ranges are UV rated allowing exposure to direct sunlight and making them ideal for alternative power applications i.e. caravans, marine craft, motor homes and portable buildings etc. where installation safety is critical.

Now you don't have to compromise safety for good looks. If you have a "pride and joy" that requires double pole power solutions, look no further than Clipsal to make your dream a reality.

**2025D 2000 Series**  
10 amp, double power outlet, double pole

**C2025D Classic Series**  
10 amp, double power outlet, double pole

## Double Pole Range and Accessories

Clipsal's Double Pole Ranges offer many products or handy accessories so you can customise your installation to suit your needs. Some of these great products, accessories and features include:

- Surface Mounting Kits (2000SMK) – ideal for installation in areas with tight wall cavities – improving aesthetics and replacing the need for mounting blocks.
- Decorative plastic or metal surrounds and covers – mix and match combinations to create your own theme.
- 2000 Series Multigang Surrounds – available in single, double, triple, and quad arrangements - in vertical or horizontal format.
