Product Environmental Profile

LCD Key Input

General information

Representative product	LCD Key Input - 5085DL-GF
Description of the product	The main purpose of the LCD key input is to have a range of high end C-Bus switches that can control up to several control group with LCD interface displays labels and status information for each control group.
Functional unit	Establish, support and interrupt for 20 years rated currents in normal conditions of circuit characterized by the current 22mA, including any conditions specified for overload in operation characterized by the current 22mA, for the operating voltage 15~36V DC for a specified time.

Constituent materials

Reference product mass	281.38 g	including the product, its packaging and additional elements and accessories

	Plastics	13.1%
	Metals	1.3%
	Others	85.6%

Substance assessment

Products of this range are designed in conformity with the requirements of the RoHS directive (European Directive 2011/65/EU of 8 June 2011 and EU 2015/863) and do not contain, or only contain in the authorised proportions, lead, mercury, cadmium, hexavalent chromium, flame retardants (polybrominated biphenyls - PBB, polybrominated diphenyl ethers – PBDE), or phthalates (Bis(2-ethylhexyl) phthalate DEHP, Butyl benzyl phthalate -BBP, Dibutyl phthalate – DBP, Diisobutyl phthalate - DIBP) as mentioned in the Directive

Details of ROHS and REACH substances information are available on the Schneider-Electric Green Premium website

Additional environmental information

The LCD Key Input presents the following relevent environmental aspects	
Manufacturing	Manufactured at a Schneider Electric production site ISO14001 certified
Distribution	Weight and volume of the packaging optimized, based on the European Union's packaging directive Packaging weight is 118.6 g, consisting of Cardboard (63.2%), PS (4.1%), PE (0.5%), Paper (32.2%)
Installation	Ref 5085DL-GF does not require any installation operations
Use	The product does not require special maintenance operations.
End of life	End of life optimized to decrease the amount of waste and allow recovery of the product components and materials This product contains electronic card (10.98g & 30.2g) that should be separated from the stream of waste so as to optimize end-of-life treatment. The location of these components and other recommendations are given in the End of Life Instruction document which is available on the Schneider-Electric Green Premium website http://www2.schneider-electric.com/sites/corporate/en/products-services/green-premium/green-premium.page Recyclability potential: **6%** Based on "ECO'DEEE recyclability and recoverability calculation method" (version V1, 20 Sep. 2008 presented to the French Agency for Environment and Energy Management: ADEME).

Environmental impacts

Reference life time	20 years. (Product lifetime is 10 years, based on PSR0005, consider 2 products.)
Product category	Switches
Installation elements	No special installation components need during installation phase, but transport of packaging to disposal, and disposal of packaging accounted for during installation.
Use scenario	The consumed power is 0.8 W and 100% service uptime, service life is 10 years.
Geographical representativeness	Australia
Technological representativeness	The Modules of Technologies such as material production, manufacturing process and transport technology used in this PEP analysis (LCA-EIME in this case) are Similar and representative of the actual type of technologies used to make the product in production.

** represents less than 0.01% of the total life cycle of the reference flow*

Life cycle assessment performed with EIME version EIME v5.8.1, database version 2016-11 in compliance with ISO14044.

The Manufacturing phase has the greatest impact on Abiotic depletion. The use phase has the greatest impact on the majority of environmental indicators (based on compulsory indicators).

Please note that the values given above are only valid within the context specified and cannot be used directly to draw up the environmental assessment of an installation.
