# **Product Environmental Profile**

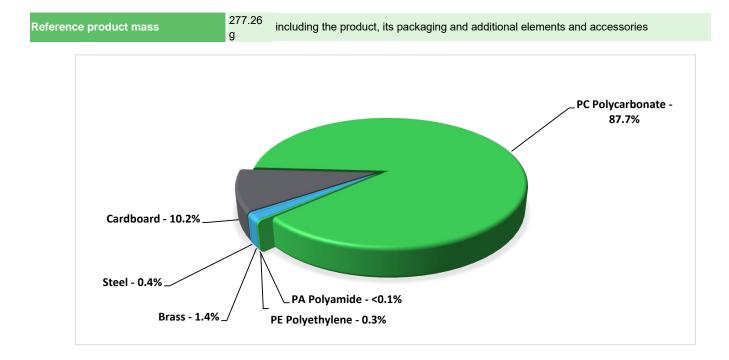

#### Weather Protected Switch Socket

| 🗍 Gene                     | eral information  |
|----------------------------|---|
| Representative product     | Weather Protected Switch Socket - WSC227/2-RG   |
| Description of the product | The main purpose of the Weather Protected Switch Socket is to offer chemical resistant properties which can be used in the strong chemicals environments.   |
| Functional unit            | Connect/Disconnect during 20 years the plug of a load consuming 10A under a voltage of 250V while protecting the user from direct contact with live parts and with a protection of class IP53 in accordance with the standard IEC 60529 and IK05 in accordance with the standard IEC 62262. |

#### Constituent materials

| Plastics | 88.0% |
|----------|-------|
| Metals   | 1.8%  |
| Others   | 10.2% |

### Substance assessment

Products of this range are designed in conformity with the requirements of the RoHS directive (European Directive 2011/65/EU of 8 June 2011) and do not contain, or only contain in the authorised proportions, lead, mercury, cadmium, hexavalent chromium or flame retardants (polybrominated biphenyls - PBB, polybrominated diphenyl ethers - PBDE) as mentioned in the Directive

Details of ROHS and REACH substances information are available on the Schneider-Electric Green Premium website <a href="http://www2.schneider-electric.com/sites/corporate/en/products-services/green-premium/green-premium.page">http://www2.schneider-electric.com/sites/corporate/en/products-services/green-premium/green-premium.page</a>

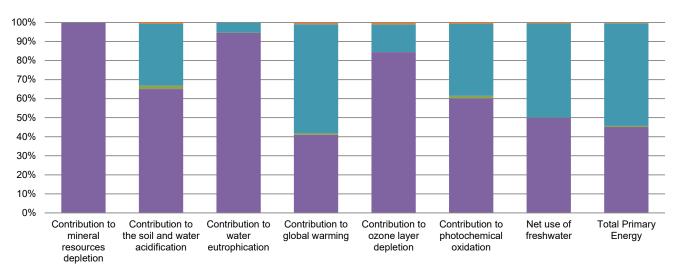

## **Additional environmental information**

|               | The Weather Protected Switch Socket presents the following relevent environmental aspects   |  |  |  |  |  |  |
|---------------|---|--|--|--|--|--|--|
| Manufacturing | Manufactured at a Schneider Electric production site ISO14001 certified   |  |  |  |  |  |  |
| Distribution  | Weight and volume of the packaging optimized, based on the European Union's packaging directive   |  |  |  |  |  |  |
| Distribution  | Packaging weight is 28.3 g, consisting of cardboard(97%),PE film(3%)  |  |  |  |  |  |  |
| Installation  | Ref WSC227/2-RG does not require any installation operations  |  |  |  |  |  |  |
| Use           | The product does not require special maintenance operations.  |  |  |  |  |  |  |
| End of life   | End of life optimized to decrease the amount of waste and allow recovery of the product components and materials<br>No special end-of-life treatment required. According to countries' practices this product can enter the usual end-of-life<br>treatment process. |  |  |  |  |  |  |
|               | Recyclability potential:49%Based on "ECO'DEEE recyclability and recoverability calculation method"<br>(version V1, 20 Sep. 2008 presented to the French Agency for Environment<br>and Energy Management: ADEME).  |  |  |  |  |  |  |

# **P** Environmental impacts

| Reference life time              | 20 years  |   |   |   |  |  |  |

\* represents less than 0.01% of the total life cycle of the reference flow

Life cycle assessment performed with EIME version EIME v5.8.1, database version 2016-11 in compliance with ISO14044.

The manufacturing phase is the life cycle phase which has the greatest impact on the majority of environmental indicators (based on compulsory indicators).

Please note that the values given above are only valid within the context specified and cannot be used directly to draw up the environmental assessment of an installation.
