

# PLUG TOPS

# 100L SERIES

## Flexible PVC covered plug tops with cord locking nut and screwed clamp terminals

### Key benefits

- ✓ Flexible PVC covering.
- ✓ Comprehensive range in 10 & 15 amps.
- ✓ Clear, see-through models available.
- ✓ Round pin models available for dedicated appliances.
- ✓ 10 amp range offers choice of standard or heavy duty cord entry holes.

100L

### FEATURE

- Flexible PVC covering.
- Comprehensive range, in 10 & 15 amp.
- Cord locking nut.
- Screwed clamp terminals.
- Clear, see-through models available.
- Includes 10A models with a round earth pin, or round active and neutral pins.
- The 10 amp range offers the choice of cord entry holes to suit either standard 8mm 10A cord or 10mm 15A heavy duty cord.
- A special model is available for figure-8 wiring.
- Available in white, grey, black and clear.
- 100L series plug tops are similar in style to 7P series extension leads.

### ADVANTAGE/BENEFIT

- Flexible. Absorbs knocks. Suits certain applications.
- The most popular types.
- Clamps the plug to the cord. Provides a gripping point, making the plug easier to insert and remove.
- Easy to wire.
- Safer. You can see if plug is correctly wired.
- Enables appliances and tools to be dedicated to powerpoints with the same configurations.
- Choice. Versatility. Certain types of appliances, tools & extension leads require the extra margin of safety and durability offered by heavy duty 15 amp cord, even though they use a standard 10 amp plug pin configuration.
- Clamps figure 8 wiring tightly in place.
- Suits most common requirements.
- Matching style. Making the plug top and extension socket set ideal for extension leads.
