

Load Centre 18 Pole Flush Mount

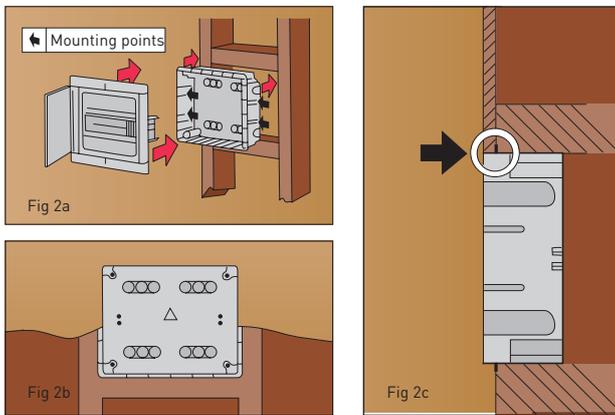

CAT NO. HEE18F

These 18 pole flush mounted enclosures suit all residential and commercial applications, new or retrofit. Simple and easy to install, they are the ideal choice for accommodating HPM and Legrand circuit protection devices.

Features:

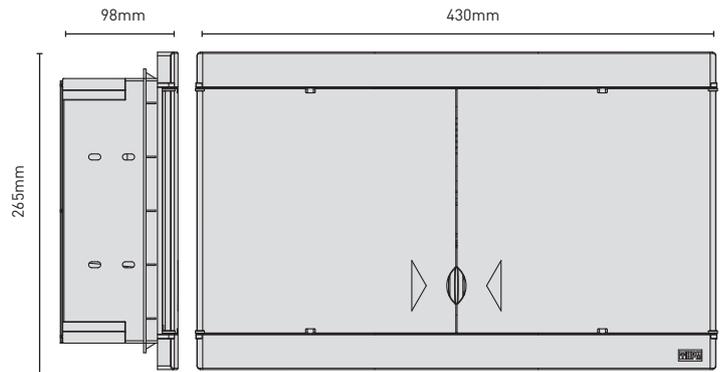

- Ample internal space for easy wiring
- Dual door
- Built-in spirit level for spot-on accuracy
- Removable clip-in cover
- Accessories included: insulated active busbar, Earth & Neutral bars, U-links, pole fillers, circuit labels, DIN rail
- Colour: Abbot white

**Flush enclosure
Plasterboard installation**

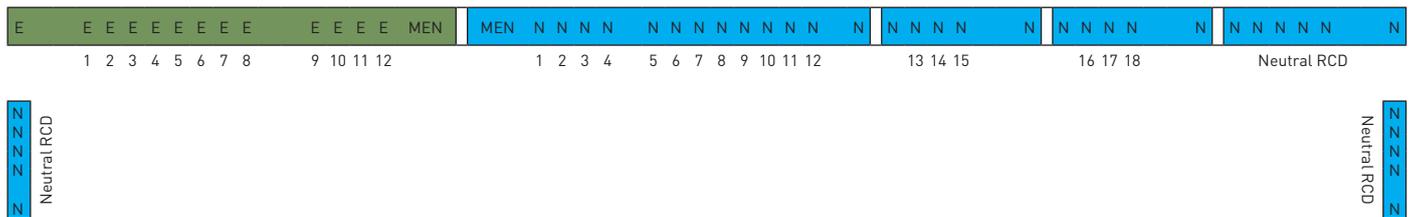

- 1 Fix the enclosure base to the wall studs or noggins, before covering with plasterboard, by screwing through the enclosure base at the point shown in Fig 2a
- 2 Ensure the enclosure base is fixed to the wall so the enclosure front cover will be flush with the finished plasterboard wall, Fig 2b. The plasterboard thickness is a minimum of 11.5mm and a maximum of 20mm, Fig 2c
- 3 The enclosure base has a built-in spirit level to ensure alignment
