

FTA TRIPOD MOUNTS

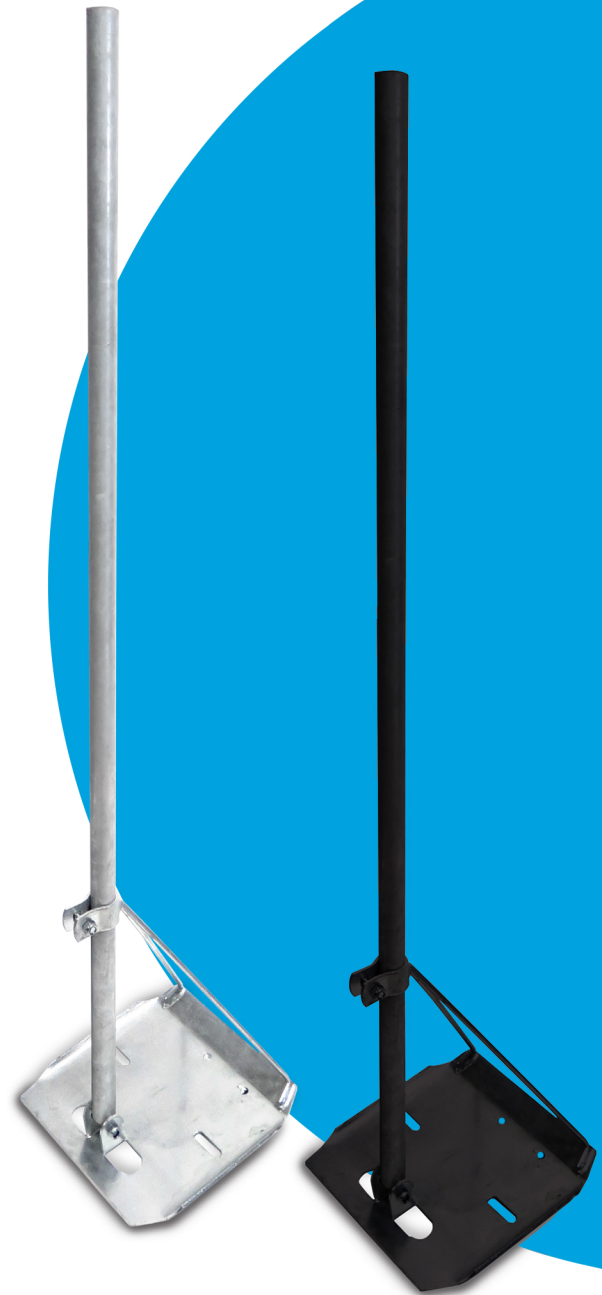

For Tin and Tile Roofs

The FTA Tripod mounts are a free-standing range of products that are suitable for installation upon tin and tile roof types.

These mounts also include a 1.2m long, 25mm round steel tube mast to provide adequate installation height for metropolitan domestic and commercial free-to-air digital television antennas.

Available in 2 surface finish types:

- Natural galvanised compatible for a silver finish range of antennas.
- Sensational Black finish for low visual impact and complimentary with the Hills the range of Iconic Black Arrow Antennas.

Key features

- Strong all steel materials used
- Welded for robust construction
- Hot dipped galvanised for superior corrosion protection
- Only one spanner needed to tighten the mast clamping fasteners

| CODE | DESCRIPTION | SURFACE FINISH |
|-----------|------------------------|--|
| BC2844 | TIN ROOF TRIPOD MOUNT | NATURAL GALVANISED |
| BC2844BLK | TIN ROOF TRIPOD MOUNT | NATURAL GALVANISED – POWDER COATED BLACK |
| BC2880 | TILE ROOF TRIPOD MOUNT | NATURAL GALVANISED |

NOTE:

- Products are not supplied with installation fasteners

- Installer to determine based upon installation type
