

Kyoritsu 6141 test kit multimeter, insulation tester & clamp meter

The Kyoritsu 6141 test kit is compiled of the Kyoritsu 1009 digital AC/DC multimeter, the Kyoritsu 3132A analogue insulation tester, and the Kewtech KT200 digital AC clamp meter. It is the ultimate test kit for any electrical trade.

Kyoritsu 3132A

Analogue insulation tester

- 3 insulation test ranges - 250V/500V/1000V
- Insulation measurement to 400M Ω
- 200mA measuring current on continuity testing
- Zero adjust for test lead resistance
- Lock down test button for hands-free testing
- Live circuit warning buzzer and neon lamp for added safety
- Battery check function
- Automatic discharge of circuit capacitance

Kewtech KT200

Digital AC clamp meter

- Measure AC current up to 400A
- Measure AC/DC voltage up to 600V
- Resistance
- Continuity buzzer
- 30mm diameter max. jaw size
- Data hold memory function
- Complies with safety standards:
IEC 61010-1 CAT. III 300V,
IEC 61010-031,
IEC 61010-032
IEC 61326

Kyoritsu 1009

Digital AC/DC multimeter

- Measure AC/DC current up to 10A
- Measure AC/DC voltage up to 600V
- Continuity buzzer
- Data hold memory function
- Capacitance and resistance measurement
- Sleep feature to save batteries
- Complies with safety standards:
IEC 61010-1 CAT. III 300V,
IEC 61010-031
IEC 61326
