

PUSH PULL RODS

These 6mm diameter, flexible rods are made of non-conductive fibreglass with polypropylene coating, and are flexible enough to go around corners and up and down walls through small openings, yet are strong enough to withstand virtually any test you may put them to.

SOME OF THE FEATURES INCLUDE:

- Fibreglass rods with thick polypropylene coating
- Ideal for running multi-purpose cable behind walls, up through crawl spaces and under floors, perfect for every hard to reach place
- Easily connected rods offer controlled flexibility
- Faster and easier than old fashioned electrical fish for running cable, now you can push or pull cable inside or outside of conduit
- Non metal/non-conductive bright yellow polypropylene coated rods protect delicate wires
