

Quick Overview

Self Fusing Butyl Rubber Tape, 19mm x 10m

Features

Nitto Specialty Tapes

Nitto 11 & 15 Self Fusing Butyl Rubber Tapes are perfect for use as anti corrosive protection & insulation to 22KV. Nitto 11 & 15 completely amalgamates within 2 hours after being applied with a stretch of 80%, protecting your cable splices & connections from corrosion.

Nitto Self Fusing Butyl Tape

- 0.5mm x 19mm x 10m
- Superior volume resistivity, high breakdown voltage, low dielectric loss tangent
- Exceptional weatherability and ozone resistance
- Excellent resistance to moisture, water & chemicals
- Nitto 15 has no interliner - no peeling off time
- General applications: Anti corrosive protection for high & low voltage connections in outdoor situations

Details

Part No.	NIT15
Brand	Nitto Denko
Unit Of Measure	Roll
Carton Quantity	100
Compendium Page #	423
Dimensions	0.5mm x 19mm x 10m
