

# Guy Cleat Surface Anchor (4 Pack) 11MM-GC/4

The GC/4 is a convenient four-pack of metal roof cleats for attaching guy or catenary wires in masting and cabling installations. It features three roof fastening points and two tie points for attaching turnbuckles or guy wires. Standard accessories (sold separately) used with the guy cleats include Matchmasters 11MM-TB6/4 or TB8/4 turnbuckles, TH6/4 guys thimbles, WRG/8 wire rope grips, and CW180 guy wire. They are proudly made in Australia from galvanised steel for long-lasting and durable installations.

## Features and Benefits

- » Can be mounted to any tin/timber
- » Galvanised finish
- » Convenient 4 pack
- » Heavy-duty construction
