

8' (2.4m) Hockey Stick Stay Bar Pair 11MM-HSS8FT

For the Best

The HSS8FT is a pair of 2.4m (4") fixed galvanised steel stay bars for supporting rooftop, ground and fascia mount masts to metal and or concrete surfaces. The stay bars feature pre-flattened, angled and punched ends for easy fastening to masts and stay surfaces. The stay bar can be attached to the masts using Matchmasters 11MM-HC01 stay bar collar for masts from 25-32mm outer diameter or can be drilled to the mast surface using suitable fasteners, proudly made in Australia from galvanised steel for long-lasting and durable installations.

Features and Benefits

- » Provides extra antenna mast or hockey stick support
- » Round tube with mounting holes at each end
- » Metallic steel finish
- » Used in conjunction with a hockey stick stay bar collar (11MM-HC01)
