

5" (127mm) Eye Screw with Wood Thread (4 Pack)

11MM-WTSE5/4

For the Best

Use Matchmaster's wood thread screw eyes for antenna masting solutions. Available in 5 or 7-inch lengths to suit different applications. They are typically used to fasten to the tops of wooden rafters to tie off guy or catenary wires to support masting or above-ground cabling links.

Features and Benefits

- » Used for anchoring to a timber surface
- » Convenient four-pack
- » Ideal for fixing guy wires for masting
- » Zinc plated for corrosion resistance
