

'RG11 'F' Type Compression Connector (25 Pack) 26MM-EX11

For the Best

The 26MM-EX11 is a professional grade PPC Broadband RG11 'F' type compression connector. The EX11 is suited for use with RG11 quadshield cables and works perfectly with Matchmasters 06MM-E11Q. Perfect for use in both CATV and satellite networks with an operating frequency range of 0-3000MHz. The EX11 features integrated gaskets and O-rings in its design to create that perfect seal to your cable to eliminate the chance of any unwanted ingress.

Features and Benefits

- » PPC Broadband RG11 'F' type compression connector for use in CATV and satellite installations
- » Used with Matchmaster compression tools (08MM-CT07 & 08MM-CT01S)
- » High-quality nickel-plated finish for long-life corrosion resistance
- » Suitable for use to 3000MHz
- » Telstra approved (739/169)
- » Constructed with a 7/16" hex nut for easy installation and compatibility with standard tools
