REMOTE RESET SIDE MOUNT MODULE FOR 193-EE

Motor Control and Drives > Motor Starting and Protection > Motor Protection > Allen-Bradley Overloads > Electronic Overloads > 193-EE Add On Protection Modules

Representative Photo Only
(actual product may vary based on configuration selections)

Remote reset module, side mount, to suit 193-EE

- Wide current adjustment range (5:1) significantly reduces inventory requirements
- Extremely low heat generation results in cooler panels and switchboards
- Self-powered with no separate power supply connection required, for convenience
- Advanced phase failure detection (typically 3 seconds) for improved motor protection
- Low-voltage compatible contacts (17V, 5mA) – ideal with PLC systems
- Includes trip and alarm contacts – 1x N/C and 1x N/O for easy integration into your control circuit
- Unique latching mechanism and strengthened power connections provide greater mechanical connection with Bulletin 100-C contactors for a more robust design

SPECIFICATIONS

Component Type	Motor Control and Drives	Protection Module
IP Rating		IP20
