

HSI-HX/HSI-THX

Quartz Metal Halide

The HX family of metal halide lamps designed for optimal performance on a mercury ballast with soft ignitor. Featuring a high lumen package with good colour rendering properties, the HSI-HX/HSI-THX family are ideal for industrial applications such as petrol stations, car parks, rail yards and are a popular choice for sports arena lighting.

- HX family of metal halide lamps designed for optimal performance on a mercury ballast with soft ignitor
- Internal ignitor versions available, for simpler circuits with no ignitor
- High lumen package with good colour rendering properties
