

## Tape Underground Warning Electrical 100m Red 150mm Wide

Item Code: 3017204

Part Number: TRAUWT150-100

Underground warning tape should be buried halfway between the underground service and the surface of the earth. It provides a visual warning for any future excavation of the conduit, pipe, cable, or other service below. Trademate underground warning tapes are made of ultra-strong, pure grade polyethylene with lead-free pigments to prevent discolouration. They are highly tolerant to a wide range of soil pH.
