

KFR-00009 61mm Splice Protector

61mm Splice Protector

> save page

Part No: KFR-00009

Region: Global

Splice protectors are reinforced by a stainless steel pin to BS2056 302 S26 specification, thus ensuring the maximum possible protection for the delicate fusion splices. To install, simply slide the protector over the fiber prior to splicing. After completion of the splice, heat shrink it into position to give permanent protection to the splice area.

Features & Benefits

- Steel pin reinforcement
- 2.4mm outside diameter
- color : Transparent
