Part No: PID-00145
Region: Global

The Molex 50 port Voice Patch Panel is dedicated to the termination of vertical cabling, supporting UTP, 4, 25 or 50 pair cables in a voice backbone. The 10 port unshielded harmonicas allow for patching of up to 50 ports in only 1U, using standard UTP RJ45 patch cords. Finished in graphite grey, this rugged panel is easy to terminate and is a space & cost effective solution for voice installations.
