

D-BOLT SOCKET CHROME PLATED

Part Number: D-SOCKET

Features

- Bolts for pillar box assembly to deter unauthorised entry
- Manufactured from mild steel
- D-bolt requires a special tube spanner (Part No. D-SOCKET)
- Also available in Allen Head

Product Description

The D-Bolt Cordless Drill Socket has been designed for a use with CABAC D-Bolt Pillar Box bolts. This method speeds up cover removal and replacement.

Also available is the D-Bolt spanner which has a long handle to clear the top of the pillar box, so that the bolts can be tightened or loosened without the risk of the spanner fouling the pillar box.

An innovative locking bolt (Part No. PBLB) is made to order to prevent unauthorised entry using a padlock.

In support of our policy of continuous product improvement we reserve the right to change materials and specifications without notice. Drawings, where used, are not to scale. All dimensions are in millimetres and sizes given are approximate. Where possible, technical MSDS data sheets are made available on the website. All products should be installed and used in accordance with manufacturer's instructions provided. Warning: products may be the subject of registered designs and patents. Refer to website for terms and conditions on warranty.
