# Product Characteristics

**Part Number: CBL2.53CODFXWH**

CABLE FLEX ORDINARY DUTY 2.5MM 50/025 3C 100M WHITE SHEATH

### Description:

Flexible cable comprises of multiple individually insulated cables contained in a round outer sheath. Used where flexibility is required such as power supply leads for moveable equipment or controls. Typically is als used in domestic and industrial extension leads. Suitable for glanding.

| Attribute Name | Attribute Value |
|---|---|
| Colour outer sheath | White |
| Number of cores | 3 |
| Nominal voltage U0 | 0.44 kV |
| Core insulation | PVC |
| With earthing | Yes |
| Conductor material | Copper |
| Core identification | Colour |
| Permitted cable outer temperature, fixed | 90 °C |
| Nominal cross section conductor | 2.5 mm² |
| Material outer sheath | PVC |
| Inner conductor category | Class 5 = flexible |
| Conductor category | Class 5 = Flexible |
| Class | Ordinary duty |
| Nominal voltage U | 0.25 kV |

| Classifications | |
|---|---|
| ETIM | EC000057 |
