Voice Cabling System - Mounting Frames

Features and Benefits

The Molex Voice Cabling system is expressly designed for voice circuits, such as block cabling and PBX inter connections. The Molex voice cabling system provides a complete range of products to facilitate a complete voice cabling system, including; termination modules, mounting frames, distribution boxes, tester interfaces and over-voltage protection.

The Voice Cabling system is compatible with other popular cabling systems enabling integration with legacy systems for expansion or refurbishment projects.

A number of different size back mount frames are available to accommodate the modules to suit a variety of application and environments. The frames accommodate modules, over-voltage protection and labelling equipment for a complete system.

- Available in 30, 50, 100, 270, 552/690 Pair Backmount and Clip on Configurations
- Stainless steel construction
- Modules mount directly onto frame
- Label holder available separately
- Dust covers available separately
- Suitable for wall or cabinet installations
