

65cm Satellite Dish 13MM-R65P

The R65P is a single-pack 65cm dish for KU band satellite reception. The R65P is an offset satellite dish made from heavy-duty galvanised steel with a durable polyester powder coat finish. The dishes are suitable for the reception of VAST, Pay TV, and other available KU band satellite services between 10.7 GHz and 12.75 GHz.

Features and Benefits

- » Single pack 65cm offset KU band satellite reception dish
- » Rolled edges for added strength
- » Gain of 37.8dB at KU band 12.75GHz
- » Compatible with satellite mount diameters 38 to 50mm
- » Made from galvanised steel with a polyester powder coat finish for high durability
- » Azimuth adjustment 0-360° and elevation adjustment 15-75°

Type	Offset
Offset Angle	28.81°
Reception Frequency	10.70 - 12.75 GHz
Ku-Band @ 12.75 GHz	37.80 dB
Focus Length	325 mm
Efficiency	75% min
Horizontal Axis	65 cm
Vertical Axis	74.18 cm
Azimuth	0° ~ 360°
Elevation	15-75°
F/D Ratio	0.5
Material	Galvanized Steel
Finish	Polyester Powder Coating
Available Color	Dark Gray / Gray
Suitable Pole Diameter	38mm ~ 50mm
Relative Humidity	0% ~ 100%
Operating Temperature	-40°C ~ 60°C
