HARD HAT PRINTING SERVICE

The need to distinguish workers in various occupations on a work site can be for safety or convenience.

For example, having a safety officer readily identified by the colour of their hard hat can improve efficiencies; while being aware of who is a visitor or sub-contractor can improve security.

To further enhance these advantages, ProChoice now offers a pad printing & a vinyl printing service that can customise hard hats - before a customer takes delivery.

Speak to your ProChoice sales representative about adding value to your hard hat sales by utilising our pad printing or vinyl cut print service.
