

# Optical Fibre Patch Cords

## Connectors:

- LC, SC, ST, MTRJ, FC, SC/APC, LC/APC

## Cable Types:

- OM1, OM3, OM4, OS1, OS2
- Standard lengths are 1,2,3,5,10,15,20 Metres,
- Custom lengths on request

## Features

- Available for single-mode and multimode
- Available in a variety of colours
- Available in 3mm, 2mm, 1.8mm or 900 $\mu$ m cable
- Available in standard and custom configurations
- Available in Duplex, Simplex or Pigtail
- Low back reflection and insertion loss
- PVC or LSZH cable available
- Ceramic ferrule

## Fibre Types and Polishes

- 50/125 $\mu$ m and 62.5/125 $\mu$ m for multimode, PC polish
- 9/125 $\mu$ m for single-mode, UPC and APC polish

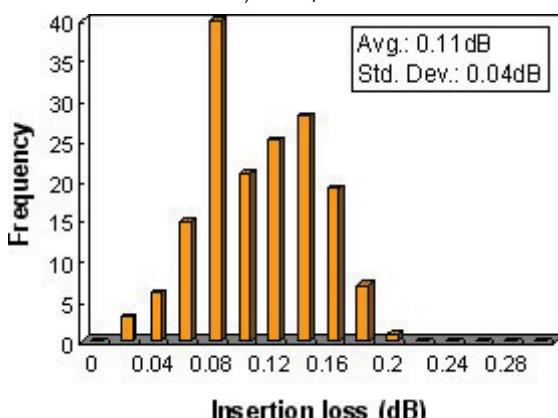

## Typical/Maximum Insertion Loss

- $\leq 0.15 / \pm 0.30$  dB for UPC single-mode
- $\leq 0.15 / \pm 0.30$  dB for APC single-mode
- $\leq 0.20 / \pm 0.30$  dB for PC multimode

## Maximum Return Loss

- $\geq 50$  dB for UPC single-mode fibre
- $\geq 60$  dB for APC single-mode fibre

Insertion Loss, SM 9/125um PC

\*Typical performance charts and Actual Data may vary from lot to lot

## Cable Standards:

### SM:

- ITU-T G.652 ( Categories A,B,C & D )
- IEC 60793-2-50 ( Type B1.1 & B1.3 )
- TIA/EIA-492 CAAB Fibre

### MM:

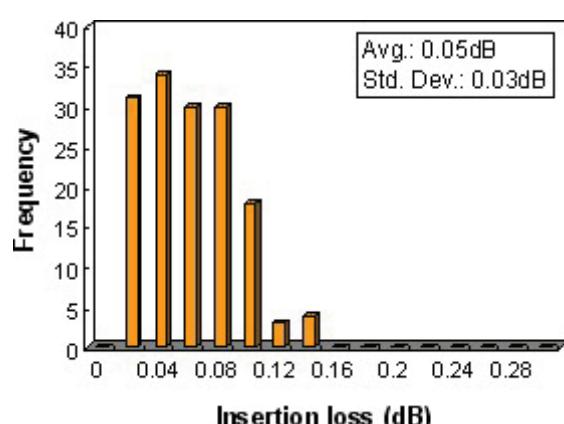

#### 50/125um

- ITU G51
- IEC 793-2 Type A1 Optical Fibre Spec

#### 62.5/125

- IEC 793-2 Type A1b Optical Fibre Spec

Insertion Loss, MM 62.5/125um
