

Indoor Digital TV Antenna

VHF/UHF (6-12)(28-51)

01MM-CA01

For the Best

The 01MM-CA01 offers all-purpose digital TV reception. It performs exceptionally well for an antenna of its size and nature, offering clear reception for channels 6 to 12 and 28 to 51. Its design is a fusion of the retro 50s-style TV “rabbit ears” antenna and digital age styling.

Features and Benefits

- » Great performer
- » Receives channels 6-12 and 28-51
- » Excellent retail packaging for display purposes
- » UHF ring dipole combined with VHF rabbit ears for flexible positioning to receive signals
