# **Product Environmental Profile**

## Acti 9 iATL24

General information						
Representative product	Acti 9 iATL24 - A9C15424					
Description of the product	Acti 9 iATL24 consists in 18 mm DIN mounted product to be associated to a contactor (Acti 9 iCT range) or an impulse relay (Acti 9 iTL range) with yellow clips which mechanically fixed the products together and feed, electrically speaking, the adjacent actuator.					
Functional unit	The main purpose of iATL24 is to allows control and indication of a 230 V AC contactor or impulse relay from the Acti 9 Smartlink or by a PLC, by 24 V DC signals, it also allows control by a maintained/pulse signal. The reference lifetime of 10 years					

### Constituent materials

#### Substance assessment

Products of this range are designed in conformity with the requirements of the RoHS directive (European Directive 2011/65/EU of 8 June 2011) and do not contain, or only contain in the authorised proportions, lead, mercury, cadmium, hexavalent chromium or flame retardants (polybrominated biphenyls - PBB, polybrominated diphenyl ethers - PBDE) as mentioned in the Directive

Details of ROHS and REACH substances information are available on the Schneider-Electric Green Premium website http://www2.schneider-electric.com/sites/corporate/en/products-services/green-premium/green-premium.page

# **Additional environmental information**

	The Acti 9 iATL24 presents the following relevent environmental aspects				
Manufacturing	Manufactured at a Schneider Electric production site ISO14001 certified				
Distribution	Weight and volume of the packaging optimized, based on the European Union's packaging directive				
Distribution	Packaging weight is 17.2 g, consisting of cardboard (60%), paper(40%)				
Installation	Ref A9C15424 does not require any installation operations				
Use	The product does not require special maintenance operations.				
	End of life optimized to decrease the amount of waste and allow recovery of the product components and materials				
	This product contains electronic card (13.7g) that should be separated from the stream of waste so as to optimize end- of-life treatment.				
End of life	The location of these components and other recommendations are given in the End of Life Instruction document which is available on the Schneider-Electric Green Premium website				
	http://www2.schneider-electric.com/sites/corporate/en/products-services/green-premium/green-premium.page				
	Recyclability potential: 61% Based on "ECO'DEEE recyclability and recoverability calculation method"   (version V1, 20 Sep. 2008 presented to the French Agency for Environment and Energy Management: ADEME). ADEME).				

# *O* Environmental impacts

Reference life time	10 years										
Product category	Other equipments - Active product										
Installation elements	No special components needed										
Use scenario	The product is in active mode 0.1% of the time with a power use of 18.4W and in Sleep mode 99.9% of the time with a power use of 0.8W for 10 years. And the duration of the operating modes expressed as a percentage of the full cycle time.										
Geographical representativeness	Europe										
Technological representativeness	Acti 9 iATL24 consists in 18 mm DIN mounted product to be associated to a contactor (Acti 9 iCT range) or an impulse relay (Acti 9 iTL range) with yellow clips which mechanically fixed the products together and feed, electrically speaking, the adjacent actuator.

\* represents less than 0.01% of the total life cycle of the reference flow

Life cycle assessment performed with EIME version EIME v5.8.1, database version 2016-11 in compliance with ISO14044.

The use phase is the life cycle phase which has the greatest impact on the majority of environmental indicators (based on compulsory indicators).

#### SCHN-00504-V01.01-EN - PEP ECOPASSPORT® - Acti 9 iATL24

Please note that the values given above are only valid within the context specified and cannot be used directly to draw up the environmental assessment of an installation.
