# Saturn™ Horizon

## A Saturn finish on the Horizon

The sophisticated Saturn range of switches and accessories now has a finish that's in touch with your style – Saturn Horizon.

Incorporating all of the fantastic architectural design features that have made the Saturn range so popular, Saturn Horizon offers a textural metallic finish, combining functionality and style.

Horizon Silver and Horizon Black come with a subtle charcoal grey frame and push-buttons that perfectly match the stylish new fascia, and superbly blend in with today's popular kitchen appliances and interior design.

No matter what colour you choose, Horizon provides you with the most contemporary switch design on the Australian market.

## Colours and styles

Available in Horizon Silver and Horizon Black for all wall switches, switched sockets, dimmers, fan controllers, cooker switches, and communication plates (see page 13 for colour representation).

## Clipsal Saturn – stunning design

Sharing the original sleek design that inspired Saturn Horizon, Clipsal Saturn is a premium range of architecturally designed electrical accessories. Especially appealing to those who desire the latest styles and fashions.

The entire range has set new standards in home electrical accessories – offering switch and accessory design that is unlike any other 250V electrical accessory range on the market.

Clipsal Saturn is specifically designed to offer a seamless electrical solution for your home in Ocean Mist, Espresso Black and Pure White colour variants. Going beyond just wall switches and power outlets, the Clipsal Saturn range offers a complete electrical accessory solution that gives superior functionality while enhancing your décor.

## Clipsal Saturn – pioneering push-button technology

Clipsal is proud to be the first company in Australia to introduce innovative round push-button design with the stunning range of Saturn wall switches.

Clipsal Saturn's revolutionary push-button technology gives you smooth reliable operation at the touch of a button, while incorporating inspirational architectural design.

# Saturn Zen

## Balances Beautifully with Your Home

The stylish, subtle design of Saturn Zen™ complements any modern or architectural interior, to create a beautiful balance throughout your home.

## Pure Simplicity, Unique Features

With LED lit push-buttons, clean lines and finger-print resistant matte finishes, Saturn Zen embraces the beauty of simplicity.

With unique optional features like pictogram button icons and a Smart Shelf for charging electronic devices, Saturn Zen is designed to make your life easier.

## Your Complete Switch Solution

Whether you require wall switches, power outlets, data outlets, USB chargers, fan controllers, dimmers or cooker switches — Saturn Zen combines form, function and affordability to create a complete switch solution for your home.

C-Bus™ Saturn Zen switches are also available for those wanting the convenience of lighting control and home automation, or to update the switches on their existing C-Bus system.

# Saturn Wall Switches

Saturn Collection

You'll love the luxurious look and feel of Clipsal Saturn wall switches, providing your home with a seamless style that is bound to turn heads. Each Saturn wall switch range will accommodate up to six individual switches and complement any modern interior design.

Compared with other wall switches on the market, the Saturn collection is unique: offering silky-smooth operation and architecturally designed fascias that look great and are a breeze to clean.

## Saturn Switch LED options

Too often when we need to turn a light on in the middle of the night, we're left scrambling in the dark trying to find the wall switch. This scenario is not only difficult, but could be potentially hazardous.

Whether you require a LED indicator light to find a wall switch in the dark or an LED indicator light to tell you which switch is in operation – Saturn switches have it covered. Clipsal Saturn and Saturn Horizon are also available with or without subtle, 'soft glow' LED options, the choice is yours.

## Saturn labelling

Saturn switches are also available with the option of handy labelling\*, making it easy to know what each button does.

### LABELLED BUTTON CAP PACK OPTIONS

2 x KITCHEN	1 x STUDY	6 x HEAT	2 x DINING
1 x BED	2 x EXHAUST	2 x ENTRY	2 x OUTSIDE
1 x BED 1	2 x BATH	2 x LAUNDRY	2 x SENSOR
1 x BED 2	2 x GARDEN	2 x LOUNGE	2 x TOILET
1 x BED 3	6 x FAN	2 x GARAGE	10 x CAT'S EYE BUTTON CAPS
1 x BED 4	6 x LIGHT	2 x FAMILY	

*\*Applies to Clipsal Saturn and Saturn Horizon ranges only.*

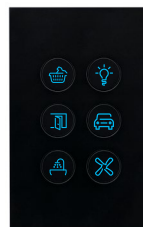

# Saturn Zen Labelling

## LED Switches and Pictogram Icons

Thanks to LED push-buttons, Saturn Zen makes it easy for you to know which switch is in operation or find a wall switch in the dark. And for even easier identification, optional pictogram icons clearly indicate individual switch operation.\*

*\*Pictogram icons only available with Saturn Zen.*

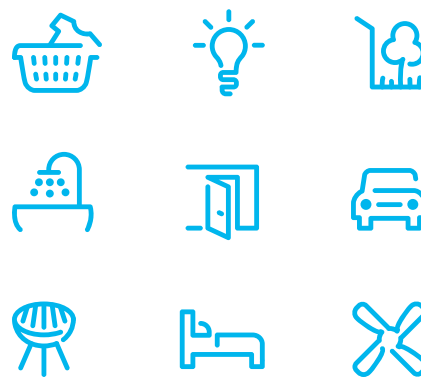

Saturn Zen

## A Picture Tells a Thousand Words

Forget trying to figure out which switch does what. You can choose from approx 40 optional pictogram icons, so you can easily recognise the right switch at a glance. They're interchangeable too, so if your requirements change, simply swap the pictogram icon for one that suits your needs.

*Pictograms come with 72 set pictograms per pack*

# Saturn Collection Switched Sockets

## Twin Switched Sockets

The stunning Saturn Collection is the ideal addition to any kitchen, complementing and enhancing this busy social hub in the home.

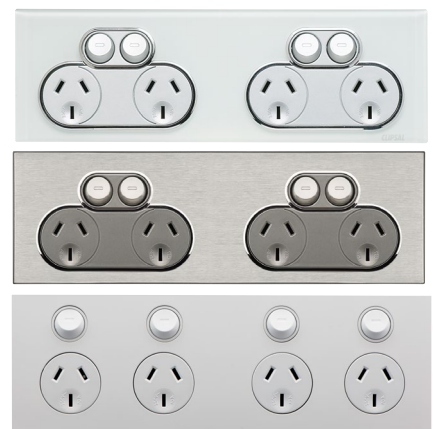

Saturn Switched Sockets provide power for all 250V electrical appliances. Although they work the same as a standard power outlet, the eye-catching architectural design is far from standard.

## Quad Switched Sockets

If you require multiple power outlets, Saturn Quad Switched Sockets are your perfect option, combining Saturn's stylish look with the convenience of a quad power outlet.

Saturn Quad Switched Sockets are ideal for providing power to a home entertainment system, kitchen appliances, or anywhere you require multiple power outlets. The benefit of extra spacing between the centre outlets makes it perfect for large plug chargers.

# Saturn Collection Cooker Switches

Increase your home safety in style with the Saturn Push-Button Cooker Switch. It's the ideal option for isolating power to your electric bench-top cooker and is also a safety requirement throughout Australia.

# Saturn Collection Fan Controllers

Saturn Fan Controllers give you complete airflow control without compromise, when combined with ceiling sweep fans.

# Saturn Collection Dimmers

The living room is one part of the house that can create many moods. Whether you require soft light while relaxing and watching a movie, or full light while playing with the kids – Saturn Dimmers will set the right mood any time of the day or night.

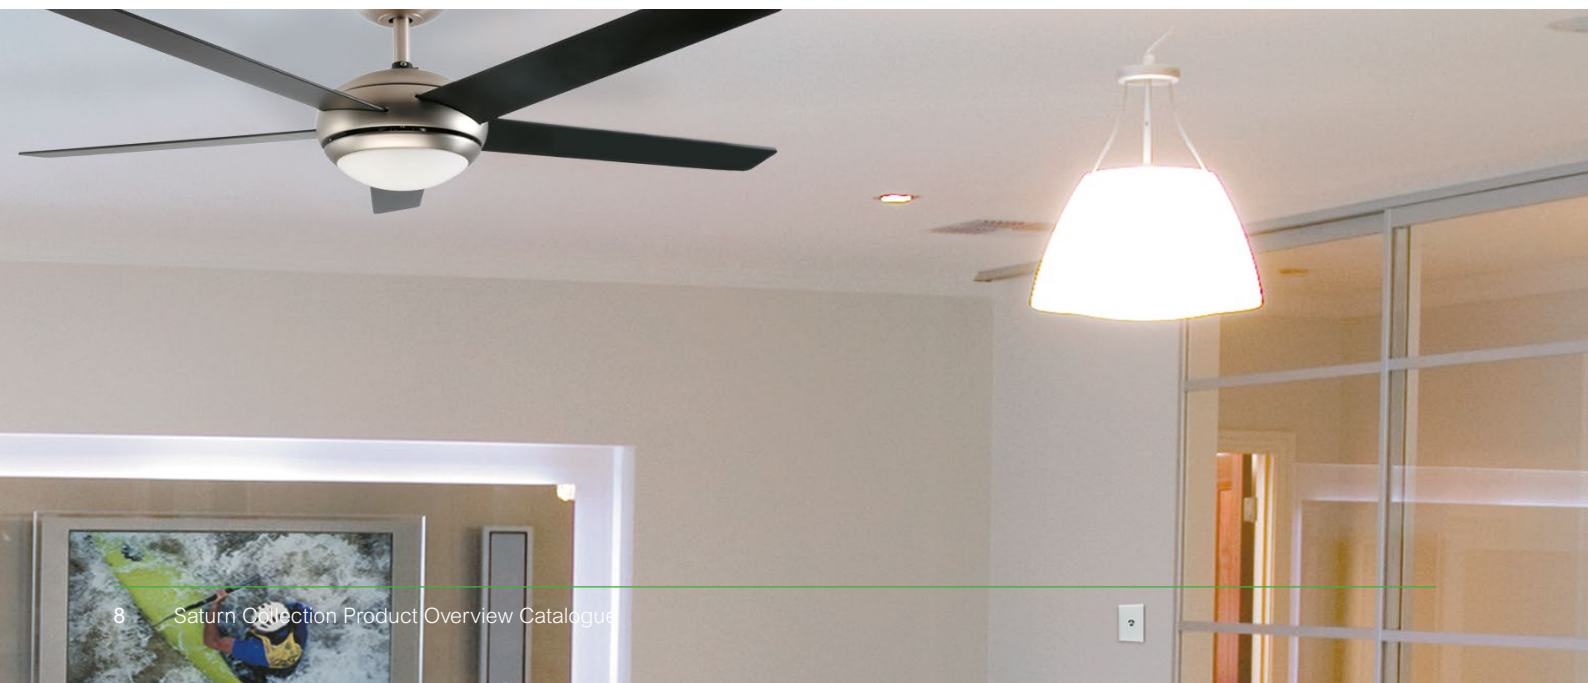

Saturn Dimmers give you complete lighting control without compromising your home's style. You'll also benefit from using less energy, saving you money on power bills, while helping to save the planet.

## Works with Wiser™

Looking for a smart home solution, the Saturn range can be easily updated with one of these Wiser smart home micro modules.

The Wiser Micro Module Switch and Dimmer are connected products that allow any switch plate, such as Saturn or Zen to become smart. Simply mount behind the plate and wire to a momentary push-button switch. With simple APP controlled dimming and switching and optional 24hr timer function, they will add value to every home.

## Saturn Collection Communication Wall Plates

The stunning Saturn Collection extends beyond just wall switches and power outlets. Saturn Communication Wall Plates give you easy access to television, audio, phone, computer and the Internet without compromising on looks.

## Saturn Collection Audiovisual Connectors

Set the scene by incorporating all the right TV and audio connectors. The Saturn Collection accommodates data jacks, HDMI connectors or Foxtel® approved TV mechanisms with Saturn Communication Wall Plates.

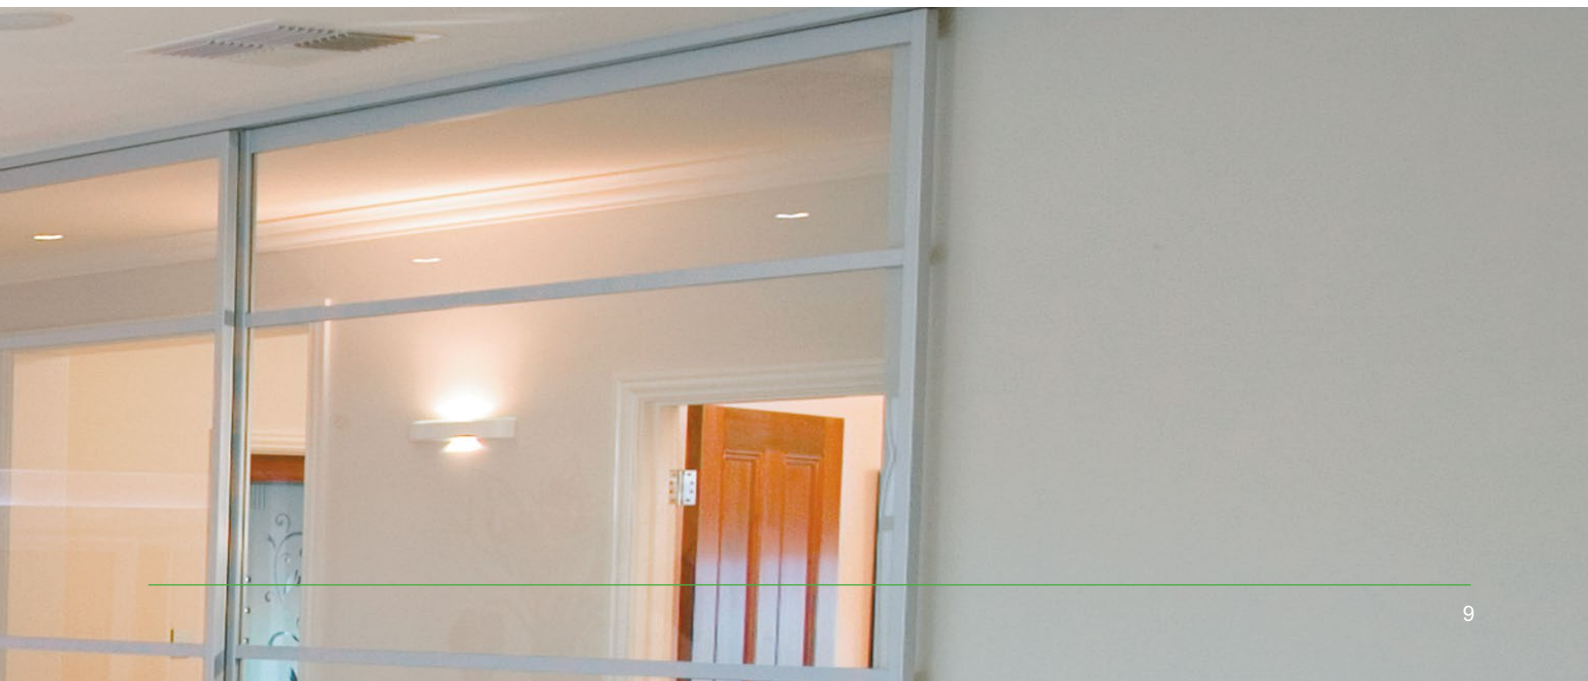

## Smart Shelf for Smart Charging

Avoid clutter on your bench and accessorise your switches with this handy Smart Shelf.\*

Designed to hold two smartphones or one tablet, the Smart Shelf can be configured with either two USBs or a twin power outlet, keeping your devices out of the way when charging.

*\*Smart Shelf only available with Saturn Zen.*

# Styles & Colours

The Saturn range of colours will blend in beautifully with any home environment. Whether your style is modern and minimal or classic and cosy, the Saturn range will create a seamless look and feel throughout your home.

# Saturn Care Instructions

Caring for your Saturn accessories is easy and will enable you to enjoy Saturn's style for many years to come. Simply wipe down the Saturn fascia with a non-abrasive, warm damp cloth.

Although the entire Saturn range is manufactured from durable scratch and chemical resistant materials, please avoid using chemical cleaners.

For more information on the Saturn Collection and other Clipsal products, contact your local Clipsal and Schneider Electric Partner Business Representative, electrical wholesaler or visit [clipsal.com](http://clipsal.com)
