

RT1806 | 18RU 800w x 800d Frame Assembly

The RT2 Series is a fully customisable cabinet design with multiple size and panel configurations suitable for any installation requirement.

The cabinets can be equipped with the Racktech iQ cable management system ideal for large volumes of cables and patch leads.

Features

- › Modular design with aluminum extrusion
- › Durable powder-coated finish
- › Cabinet is designed for strength and flexibility and can take up to 1000kg static load capacity
- › Fully adjustable mounting rails with RU markings on the front for quick installation
- › Doors are available in acrylic, steel, vented, curved vented or bifold vented
- › Doors can be left or right hand hinged
- › Concealed hinges and fasteners
- › Quick release hinges and latches
- › Vertical power rails can be mounted on uprights
- › Fans, castors, plinths, cable managers and chimneys are available
- › Large cable access entry in the roof provides access for overhead cable egress
- › Side panel with ventilation at the bottom allows for passive airflow throughout the cabinet
- › Ripple Black Gloss is the standard colour. Other colours are available upon request. MOQ applies.
- › Flat pack option available
- › Complies with IEC 60297 and EIA-310

Standard Inclusions

- › Cabinet frame
- › Front and rear mounting rails
- › RU labels on front rails only
