

# Testifier All Cable Tester

The new Aegis Testifier™ produces the most accurate and easy-to-understand results of any cable tester/verifier on the market. The Testifier™ is ideal for all wiring environments found in most home automation/network applications. CATV, telephone systems, audio cable, security/alarm wiring, and network cabling can all be tested and located using the Testifier™ and the optional room identifier sets.

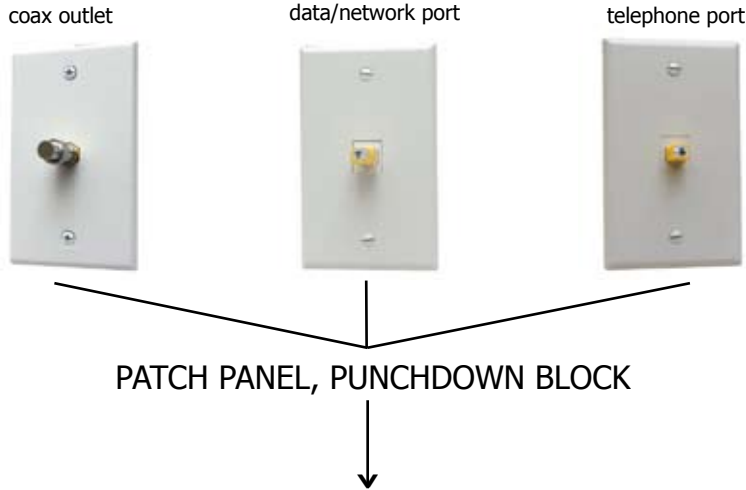

- Ideal for home automation
- Tests all cable types
- Optional multi-identifier sets enable mapping of up to 20 points
- Voltage warning indicator
- Built-in tone generator
- Detachable remote
- Large easy to read LCD
