Quick Change Handle
Bordo's quick change screwdriver bit handle is machined from a solid aluminium billet with fine knurling for the ultimate non-slip grip. Each handle features two click-in quick change sockets to suit all standard 1/4" hex shank accessories. Ideal for use with with any of Bordo's extensive range of premium quality powerbits.

See pages 14-16 for the complete range of Bordo Plus high performance magnetic bit holders.
