

# Synergy Copper Surface Blocks >

The Synergy product line is an industrially designed family of wallplates, surface blocks and modular furniture outlets with sleek rounded contours that offer an aesthetically pleasing style for even the most contemporary office atmospheres.

Synergy Copper Surface Blocks are ideal for use in a confined space. Surface Blocks provide the option of either side or base entry of cables with internal cable management and are mounted using screws. Location designation is clearly visible from the top of these surface blocks with label and clear cover. The 6 port Synergy Block comes with rigid metal plate which allows for use as consolidation point enclosure.

## FEATURES AND ADVANTAGES

Utilize DataGate C5e UTP, Cat 6 UTP, Cat 6A shielded copper jacks and single-position copper modules	Concise labeling
Contemporary styling	Clear label covers to prevent misplacement
Rear loading modules to reduce tampering	MIIM terminator cap compatible
