

# Safety & Security

## Warning Tags

Code	Description	Colour	Pack qty
OST	Out of service tag	yellow	100
DT	Danger tag	Red	100
IT	Information tag	Blue	100

All tags are supplied with a thin plastic weather proof coating, brass eyelet and length of string. Tags can be written on by standard ball point pen and are designed for single use.

Note : When ordering, 1 = one pack.

## Cable lock

Code : CABLCK1.2

This 1.2 meter cable lock is made with a nylon coated spiralled stainless steel cable. It comes with a 4 piece security code tumbler which can be personalized with your choice of any four digit number combination. For added user benefit, it comes with a built-in light.

## Security Bit Set

Code : 61BITSET

This handy bit set comes in a compact case for convenient storage. It includes a variety of security power bits including hollow torx, solid torx, hexagonal, hollow hexagonal, fork and standard Philips and flat blade. A magnetic power bit adaptor for a power drill is included.

## Voltage Detector

Code : VOLTDET

A non-contact voltage detector to suit voltage range of between 70 to 1,000 volts. When detecting voltage, this device emits an audible beeping sound and a bright LED light which can be clearly seen through the clear tip. Fitted with a sturdy pocket clip and two x AAA batteries (supplied). CE approval number VTUPV-024/2012/SZ.
