

Designed to fit directly onto the EDM-300C wall mounted fan in narrow wall panel applications.

Fan and grille combination designed to be installed into wall panels from 45 to 130mm wide.

SLIMFIT

EXTERNAL GRILLE AND SPACER PLATE

The Slimfit Grille and Spacer Plate have been specifically designed to fit directly onto the spigot of an EDM-300C fan.

- Spacer Plate can be mounted on exterior or interior wall.
- Made from UV-stabilised ABS Plastic.
- Comes with flywire mesh sheet to eliminate entry of insects.
- Grille can also be used with thicker walls or ducted applications using wall tube or flex duct.
- Available with 150mm spigot only.

INSTALLATION DATA

Can be installed into 45 to 130mm thick narrow wall panel applications such as mining accommodation huts, portable homes and site offices.
