SILICONE SEALANT - HOW TO IDENTIFY THE EXPIRY DATE?

HARDWARE SILICONE SEALANT TUBE 300 GRAMS

Product Code: AMASC

FOXTEL: F30892

Our plumbing silicone sealant has the manufacturing date marked at the top of the tube. When the plumbing silicone sealant is placed in a 30 °C environment, the shelf life will only be 12 months. However, if it is placed in a cooler environment, the shelf life is extended, for example at 25 °C, the shelf life becomes 18 months.

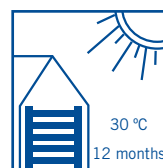

Please refer to the identification markings below to determine the expiry date from the manufacturing date:

A720180815

- A7** THE FILLING MACHINE NUMBER
- 2018** THE YEAR OF PRODUCTION
- 08** THE MONTH OF PRODUCTION
- 15** THE DAY OF PRODUCTION
- xxx** A SERIES OF 3 NUMBERS IF SHOWN CAN BE DISREGARDED

The date of manufacturing was the 15th August 2018.

The expiry date if placed in a 30 °C environment will be:
15th August 2019.

The expiry date if placed in a 25 °C environment will be:
15th February 2020.
