

IEC (PAL) Female To 'F' Female  
Wall Plate Insert (8 Pack)  
O5MM-WA11

The O5MM-WA11 is a fully shielded Female-type rear connector. It is available in eight packs and is suitable for use with FTA TVs. The connector itself is nickel plated and is compatible with most standard-sized Clipsal wall plates, making AV connectivity that much easier. The return loss for this unit measures >10dB.

**Features and Benefits**
