

LEDMR1610W
10W GU10 LED Globe

GRC Lighting

*R & C Agency International
Lighting Specialists for over 15 years*

Description: The 10W LEDMR1610W is a dimmable MR16 lamp. Brightness exceeds that of a 50W halogen and is highly sought for its wide beam angle, value and output. Also compatible with our range of track lights, downlight frames and spotlights. It features a thermal ramping feature for when it is used in enclosed fittings. As it reaches critical temperature, it ramps down the power to ensure lamp does not damage itself. As fitting cools down, brightness will ramp up to the original brightness. *** Depending on site, Clipsal Load Correction device/s may be required. *Tested with MEDM Diginet (rotary), commonly available through most Electrical Whoelsalers.**

Dimmable: Remote: Yes, if used with E40/E60 Osram , or E60PODFP/E (R&C Exclusive) , only in a 1:1 configuration.
Track: Yes, if used with our 'TD/LV' variant track fitting, eg EXT861WH-TD/LV

Lamp Base: MR16

Enclosable: Yes
