

## PULL LINES & HAULING ROPES

IPD supply a range of strong and resilient pull ropes & pull lines that adapt to the rigors of any heavy duty conduit or pit project. Our quality range is designed and manufactured to perform within the toughest of environments. Choose from our range of Telstra approved Polypropylene rope, 3mm Orange mono braid, or our range of Pull Line for any jetting application.

### Features:

- Suitable to use on most cable types.
- Super high strength - up to 163kg breaking strength.
- Self lubricating line lasts for years, will not rust, rot or mildew.
- Centre dispensing box pays out line smoothly.
- Tangle free deployment.

PL1900

### PULL LINES

IPD supply a range of pull lines that are designed to attach to the back of a line carrier, fibreglass Duct Rods, Fish Rods and Fish Tapes. They are then used to pull back rope or cable once Blown or pulled through the conduit.

Line Type	Breaking Strain (kg)	Length (m)	Pack Qty	Part No.
Pull Line	90	1830	1	<b>PL1900</b>
