racktech

RTX8042G | RTX8042S | RTX8042V

RTX Series is a pre-configured floor standing cabinet range ready for delivery. RTX cabinets are the perfect solution for educational facilities, small to medium size businesses, low density commercial applications and communication rooms.

The series has three door options available and many standard inclusions, comprising power distribution units, fans, shelves, and vertical cable management systems.

The Cabinets are supplied fully assembled enabling quick installation and easy maintenance with the added benefit of time and cost savings.

Features

› Doors open to 180 degrees with quick release hinge
› Glass, Steel or Vented front door options
› Vented front doors are curved with 70% perforation (protrudes 50mm)
› Vented Bifold rear door is standard
› Swing handle with lock for both front and rear doors
› 19" depth adjustable mounting rails with RU markings
› Side panels fitted with round locks are easy to fit and remove
› Top and bottom panel with multiple cable entry knockouts
› 800kg static load (on levelling feet)

Standard Inclusions

› 4 x Fan units (800 to 1200 depth)
› 3 x Fixed shelves (37RU to 45RU)
› 1 x 8 way horizontal PDU
› 2 x Vertical cable duct
› 2 x 150mm wide vertical cable trays
› 25 x Cage nuts
› Earthing kit for all panels and doors
› Castors (for transport)
› Levelling feet
› Swing handle with lock for both front and rear door
› Small round lock for side panels
› Baying kit
