

Product Characteristics

Part Number: REH247L40EO

SWEEP BEND 40MM 90 DEGREE HD 305MM RAD

Description:

Sweep bends are used to change the direction of a rigid conduit run without sharp turns. This is particularly important where cable pulling is required and to avoid damaging large diameter cables. Sweep bends make it easier to feed cables through conduit and avoids bunching and stress caused by trying to feed cable around an elbow.

Attribute Name	Attribute Value
Angle of bow	90 °
Colour	Orange
Diameter	40 mm
Radius	305 mm

Classifications	
ETIM	EC000936
UNSPSC	39131708
