

Product Environmental Profile

ATV930 IP00 315KW 400V/480V 3PH W/O BRAKING

**Altivar Process -VARIABLE SPEED DRIVE 220 to 315kW
400V/480V- 3PH - IP21**

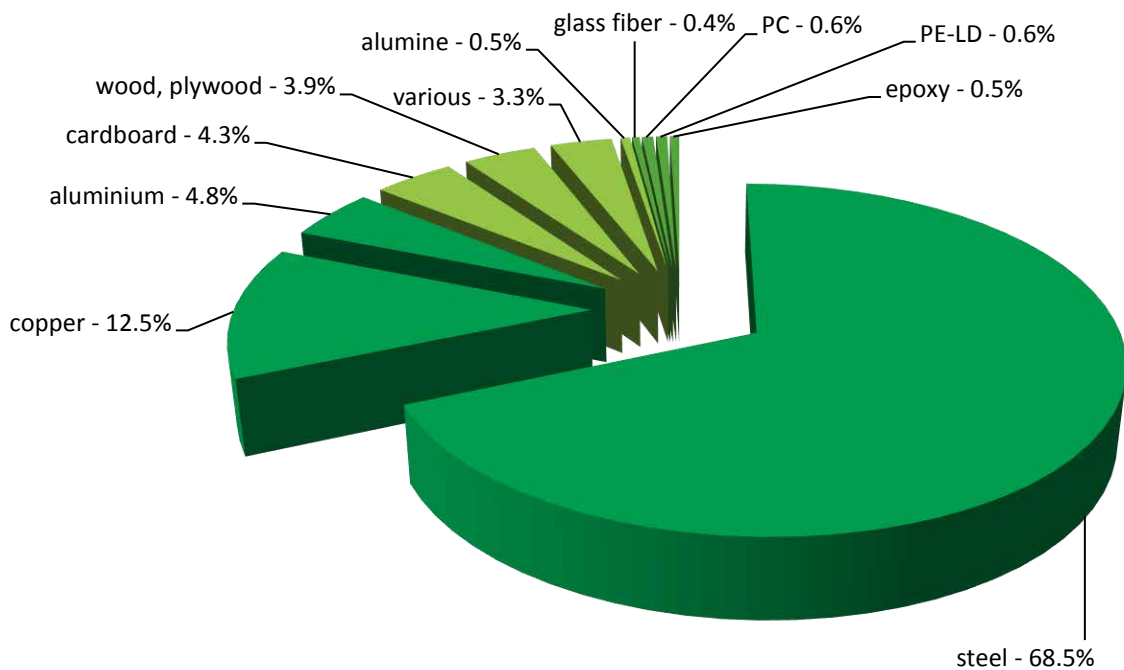

General information

Representative product	ATV930 IP00 315KW 400V/480V 3PH W/O BRAKING -ATV930C31N4C
Description of the product	The main function of the Altivar Process product range is the speed control and variation of a synchronous, asynchronous or reluctance electric motor for fluid management and industrial applications.
Description of the range	Altivar Process -VARIABLE SPEED DRIVE 220 to 315kW 400V/480V- 3PH - IP21 The environmental impacts of this referenced product are representative of the impacts of the other products of the range which are developed with a similar technology.
Functional unit	To adapt the speed and torque of synchronous, asynchronous or reluctance motor to the machine's operating point. Calculation of the environmental impacts is based on 10 years of product service lifetime. The usage profile taken into account is 80% uptime in use phase at 75% loading rate and 20% uptime in stand by phase.

Constituent materials

Reference product mass	222135 g including the product, its packaging and additional elements and accessories
-------------------------------	---

Substance assessment

Products of this range are designed in conformity with the requirements of the RoHS directive (European Directive 2011/65/EU of 8 June 2011) and do not contain, or only contain in the authorised proportions, lead, mercury, cadmium, hexavalent chromium or flame retardants (polybrominated biphenyls - PBB, polybrominated diphenyl ethers - PBDE) as mentioned in the Directive

As the products of the range are designed in accordance with the RoHS Directive (European Directive 2002/95/EC of 27 January 2003), they can be incorporated without any restriction in an assembly or an installation subject to this Directive.

Details of ROHS and REACH substances information are available on the Schneider-Electric Green Premium website

<http://www2.schneider-electric.com/sites/corporate/en/products-services/green-premium/green-premium.page>

Additional environmental information

The ATV930 IP00 315KW 400V/480V 3PH W/O BRAKING presents the following relevant environmental aspects

Design	Products are designed to be "Green Premium".
Manufacturing	Manufactured at a Schneider Electric production site ISO14001 certified
Distribution	Weight and volume of the packaging optimized, based on the European Union's packaging directive Packaging weight is 19135 g, consisting of cardboard (44.81%) paper (0.50%) paper packaging label (1.62%) PE bag + PE wedge (8.15%) wood pallet (44.45%) dessicant (2.09%) Product distribution optimised by setting up local distribution centres
Installation	Does not require any special installation operations
Use	The product does not require special maintenance operations.
End of life	End of life optimized to decrease the amount of waste and allow recovery of the product components and materials This product contains Electronic Card (147596g) Electrolyte capacitors (1920.0g) Battery (2.9 g) Cable (431.8g) LCD (6.7g) that should be separated from the stream of waste so as to optimize end-of-life treatment. The location of these components and other recommendations are given in the End of Life Instruction document which is available on the Schneider-Electric Green Premium website http://www2.schneider-electric.com/sites/corporate/en/products-services/green-premium/green-premium.page Recyclability potential: 87% Based on "ECO'DEERE recyclability and recoverability calculation method" (version V1, 20 Sep. 2008 presented to the French Agency for Environment and Energy Management: ADEME).

Environmental impacts

Reference life time	10 years
Product category	Active products
Installation elements	No special components needed
Use scenario	Consumed power is 7868 W 80 % of the time in Active mode, 182 W 20 % of the time in Standby mode, W 0 % of the time in Sleep mode and W 0 % of the time in Off mode. The product is in active mode 80% of the time with a power use of 7868W, in stand-by mode 20% of the time with a power use of 182W, for 10 years.
Geographical representativeness	Worldwide
Technological representativeness	The main function of the Altivar Process product range is the speed control and variation of a synchronous, asynchronous or reluctance electric motor for fluid management and industrial applications.

Energy model used	Manufacturing	Installation	Use	End of life
	Energy model used: China	Electricity Mix; AC; consumption mix, at consumer; < 1kV; EU-27	Electricity Mix; AC; consumption mix, at consumer; < 1kV; EU-27	Electricity Mix; AC; consumption mix, at consumer; < 1kV; EU-27

Compulsory indicators		ATV930 IP00 315KW 400V/480V 3PH W/O BRAKING - ATV930C31N4C					
Impact indicators	Unit	Total	Manufacturing	Distribution	Installation	Use	End of Life
Contribution to mineral resources depletion	kg Sb eq	1.60E-01	1.45E-01	0*	0*	1.49E-02	0*
Contribution to the soil and water acidification	kg SO ₂ eq	2.49E+03	1.04E+01	0*	0*	2.48E+03	0*

Exported Energy	MJ	1.02E+01	1.02E+01	0*	0*	0*	0*

* represents less than 0.01% of the total life cycle of the reference flow

Life cycle assessment performed with EIME version EIME v5.5, database version 2015-04.

The use phase is the life cycle phase which has the greatest impact on the majority of environmental indicators (based on compulsory indicators).

According to this environmental analysis, proportionality rules may be used to evaluate the impacts of other products of this range.

The mineral resources depletion of the product of the family maybe proportional extrapolated by mass of product. And the other environmental indicators of the range may be proportional extrapolated by power consumption of the product.

Please note that the values given above are only valid within the context specified and cannot be used directly to draw up the environmental assessment of an installation.

Registration N°	ENVPEP1607002_V2	Drafting rules	PCR-ed3-EN-2015 04 02
Date of issue	07/2016		
Validity period	5 years	Information and reference documents	www.pep-ecopassport.org
Independent verification of the declaration and data, in compliance with ISO 14025 : 2010			
Internal	X	External	
The elements of the present PEP cannot be compared with elements from another program.			
Document in compliance with ISO 14025 : 2010 « Environmental labels and declarations. Type III environmental declarations »
