

# Product Environmental Profile

**Masterpact MTZ2 25H1 three pole draw out circuit breaker with  
Micrologic 5.0X control unit**

## General information

<b>Representative product</b>	Masterpact MTZ2 25H1 three pole draw out circuit breaker with Micrologic 5.0X control unit
<b>Description of the product</b>	<p>The Masterpact MTZ2 25H1 three pole draw out circuit breaker is designed to guarantee the protection of a low voltage electrical distribution system with assigned voltage up to 690VAC and rated current of 2500A.</p> <p>The breaker can be remotely operated using closing XF release and opening MX release.</p> <p>The Micrologic 5.0X control unit fitted with the circuit breaker enhances protection of electrical installation under fault conditions.</p>
<b>Functional unit</b>	<p>Protect during 20 years the installation against overloads and short-circuits in circuit with assigned voltage up to 690VAC and 2500A rated current. This protection is ensured in accordance with the following parameters:</p> <ul style="list-style-type: none"> <li>- Number of poles: 3</li> <li>- Rated service breaking capacity Ics at 440VAC = 66kA (according to IEC 60947-2)</li> <li>- Tripping curve: long time, short time and instantaneous adjustable protections</li> </ul>

## Constituent materials

**Reference product mass** 100Kg including the product, its packaging and additional elements and accessories

## Substance assessment

Products of this range are designed in conformity with the requirements of the RoHS directive (European Directive 2011/65/EU of 8 June 2011) and do not contain, or only contain in the authorised proportions, lead, mercury, cadmium, hexavalent chromium or flame retardants (polybrominated biphenyls - PBB, polybrominated diphenyl ethers - PBDE) as mentioned in the Directive

As the products of the range are designed in accordance with the RoHS Directive (European Directive 2002/95/EC of 27 January 2003), they can be incorporated without any restriction in an assembly or an installation subject to this Directive.

Details of ROHS and REACH substances information are available on the Schneider-Electric Green Premium website

## Additional environmental information

The Masterpact MTZ2 25H1 three pole draw out circuit breaker with Micrologic 5.0X control unit presents the following relevant environmental aspects

<b>Manufacturing</b>	Manufactured at a Schneider Electric production site ISO14001 certified
<b>Distribution</b>	Weight and volume of the packaging optimized, based on the European Union's packaging directive Packaging weight is 13,54kg, consisting of pallet wood (10kg), cardboard (3kg), paper (225g) polyethylene film (164g) and steel (151g) Product distribution optimised by setting up local distribution centres
<b>Installation</b>	The Masterpact MTZ2 25 H1 3P draw out circuit breaker does not need any special installation operation
<b>Use</b>	The end user must refer to maintenance guide of the product in order to do the appropriate maintenance operations. The Micrologic Control Unit has to be replaced every 10 years and the display screen of Micrologic Control Unit every 5 years.
<b>End of life</b>	End of life optimized to decrease the amount of waste and allow recovery of the product components and materials  This product contains a battery (10g) and 7 electronic cards (29g, 27g, 48g, 10g and 3x10g) that should be separated from the stream of waste so as to optimize end-of-life treatment.  The location of these components and other recommendations are given in the End of Life Instruction document which is available on the Schneider-Electric Green Premium website  <a href="http://www2.schneider-electric.com/sites/corporate/en/products-services/green-premium/green-premium.page">http://www2.schneider-electric.com/sites/corporate/en/products-services/green-premium/green-premium.page</a>  Recyclability potential: <b>66%</b> Based on "ECO'DEEE recyclability and recoverability calculation method" (version V1, 20 Sep. 2008 presented to the French Agency for Environment and Energy Management: ADEME).

## Environmental impacts

<b>Reference life time</b>	20 years			
<b>Product category</b>	Passive products - continuous operation			
<b>Installation elements</b>	No special components needed			
<b>Use scenario</b>	Product dissipation is 150 W considering a 50% load rate, service uptime percentage is 30%.			
<b>Geographical representativeness</b>	China, Europe, US			
<b>Technological representativeness</b>	The Masterpact MTZ2 25H1 three pole draw out circuit breaker is designed to guarantee the protection of a low voltage electrical distribution system with assigned voltage up to 690VAC and rated current of 2500A. The breaker can be remotely operated using closing XF release and opening MX release. The Micrologic 5.0X control unit fitted with the circuit breaker enhances protection of electrical installation under fault conditions.			
<b>Energy model used</b>	<b>Manufacturing</b>	<b>Installation</b>	<b>Use</b>	<b>End of life</b>
	Energy model used: China	Electricity mix; AC; consumption mix, at consumer; 220V; CN	Electricity mix; AC; consumption mix, at consumer; 220V; CN	Electricity mix; AC; consumption mix, at consumer; 220V; CN

Compulsory indicators		Masterpact MTZ2 25H1 three pole draw out circuit breaker with Micrologic 5.0X control unit					
Impact indicators	Unit	Total	Manufacturing	Distribution	Installation	Use	End of Life

\* represents less than 0.01% of the total life cycle of the reference flow

Life cycle assessment performed with EIME version EIME v5.5, database version 2015-04.

The use phase is the life cycle phase which has the greatest impact on the majority of environmental indicators (based on compulsory indicators).

Please note that the values given above are only valid within the context specified and cannot be used directly to draw up the environmental assessment of an installation.
