

# QUICK-SET PLUG-IN TIMER Cat D818/1

**Quick-set plug-in 24 hour timer with full M40 motor rating**

## Key benefits at-a-glance

- ✓ Fast, simple set / reset programming
- ✓ Heavy-duty M40 rating
- ✓ Plug-in portability and economy

## FEATURE

## BENEFIT

- 24-hour timer, 15-minute segments

Repeats the settings each day without reprogramming. For repetitive tasks, this is the easiest way to switch on and off at the same times each and every day. The 15-minute segments give control to within 15 minutes of switching times.

- Simple programming

By simply pushing the segments between start and stop times the timer is set. By pushing them back, it is reset - much quicker and easier than inserting pins (which can get lost) or programming a digital timer (which can be more complicated).

- M40 motor rating

Can be used to switch motor loads such as pool pumps, fans, air conditioning etc. HPM recommends that these devices are never used to control heaters due to the fire risk.

- Portable and convenient

Simply move it to wherever there's a powerpoint.

- Override switch

By overriding the timer, the power outlet operates from the powerpoint switch as if the timer were not there.

<b>Specifications:</b>	
Voltage:	230-240 Vac, 50 Hz
Max switching current:	10A
Max power:	2400W
Motor rating:	M40
Min switching increment:	15 minutes

<b>Packaging details:</b>		
	Qty 1	Qty 5
Weight:		
Dimensions:	190Hx110Wx115D	125Hx195Wx540D (approx)
Barcode:	9321001177722	9321001177807
