Iconic™ Smart Push-Button Remote Mechanism with LED indicator

Application

The Iconic Smart Push-Button Remote Mechanism with LED indicator is a three wire modular slave unit providing multiway dimming and switching control for Clipsal ControlLink enabled master devices. The Remote mech contains a smart LED indicator that will automatically track the status of the master unit. When used with Wiser Iconic units, it will automatically sync its LED settings as well, simplifying install. For use with all ControlLink enabled Iconic Push-Button devices, the Smart Push-Button Remote Mech is a simple way to provide seamless multiway control.

Functions

- Provides multiway dimming and switching via ControlLink using standard wiring.
- Smart LED indicator automatically tracks the status of the master unit
- Suitable for use with all Iconic ControlLink enabled Push-Button devices
- LED indicator setting syncs to Wiser enabled devices, and can be adjusted using Push-Button menu
- Supplied with Vivid White (VW) Push-Button assembly, additional colour options available as parts packs
