

OLEX-SWITCHTECH

ONE CABLE, TWO FUNCTIONS

Olex-Switchtech is a two-in-one cable designed specifically for LED, WiFi and Bluetooth capabilities of modern switchgear. No more time wasted installing two separate cables. Olex-Switchtech does the hard work for you with a twin-active and neutral in one cable.

Olex-Switchtech is locally manufactured at Nexans Olex' best in-class manufacturing facility in Lilydale, Victoria.

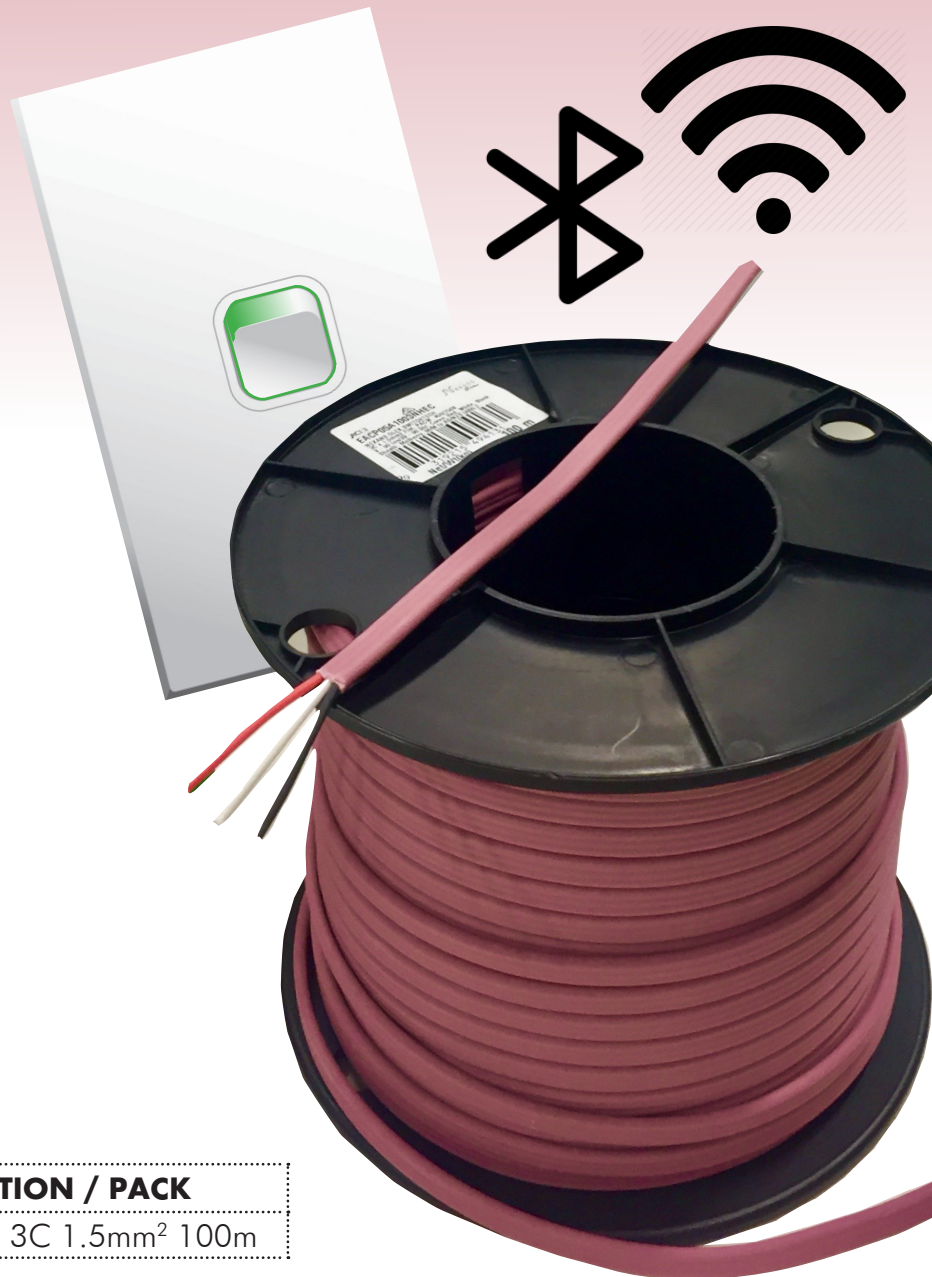

You can trust Olex and expect high quality, durability and performance at all times.

Manufactured to comply to AS/NZS Standards, maintaining safe core configuration using PVC Best Practice that contributes to your Green Star Rating.

Look out for the new Olex-Switchtech in its signature mulberry pink at your local wholesale store!

Cable Configuration: Red, White, Black 450/750V
