# **Product Environmental Profile**

#### THALASSA PLM

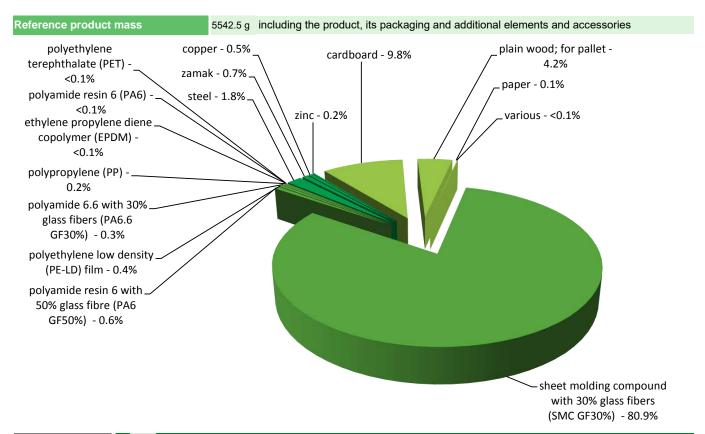

#### **General information**

| Representative product     | THALASSA PLM -NSYPLM43   |
|----------------------------|--|
| Description of the product | The main purpose of the product is to integrate and to allow the fixing of electric or electronical devices as power current, switches, transformers, fuses or similar. This product consists of: Monobloc Wall-Mounting enclosures with full door and closure through 2, 3 or 4 points and some references may contain plates insulating and metal full plates.   |
| Functional unit            | The main function of the wall-mounting enclosure product is to protect persons against direct contact with live parts and allow grouping monitoring, control and protection of electronic or mechanical device from weather condition in a single enclosure or a cabinet having the dimensions 430mm x 330Lmm x 200mm during 20 years, while protecting against mechanical impacts (IK10) and the penetration of solid objects and liquids (IP66) in accordance with IEC60529 standards. |

## Constituent materials

## Substance assessment

Products of this range are designed in conformity with the requirements of the RoHS directive (European Directive 2011/65/EU of 8 June 2011) and do not contain, or only contain in the authorised proportions, lead, mercury, cadmium, hexavalent chromium or flame retardants (polybrominated biphenyls - PBB, polybrominated diphenyl ethers - PBDE) as mentioned in the Directive

As the products of the range are designed in accordance with the RoHS Directive (European Directive 2002/95/EC of 27 January 2003), they can be incorporated without any restriction in an assembly or an installation subject to this Directive.

Details of ROHS and REACH substances information are available on the Schneider-Electric Green Premium website <a href="http://www2.schneider-electric.com/sites/corporate/en/products-services/green-premium/green-premium.page">http://www2.schneider-electric.com/sites/corporate/en/products-services/green-premium/green-premium.page</a>

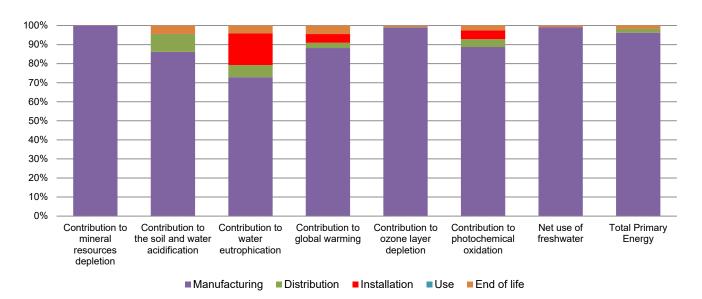

## Additional environmental information

|               | The THALASSA PLM presents the following relevent environmental aspects  |  |  |  |  |  |
|---------------|---|--|--|--|--|--|
| Manufacturing | Manufactured at a Schneider Electric production site ISO14001 certified   |  |  |  |  |  |
| Distribution  | Weight and volume of the packaging optimized, based on the European Union's packaging directive   |  |  |  |  |  |
|               | Packaging weight is 801 g, consisting of Cardboard (67.55%), Wood (Plain, for pallet) (29.02%), PE (Low density, LDPE, Film) (2.44%) % Paper (0.99%).   |  |  |  |  |  |
|               | Packaging recycled materials is 10% of total packaging mass.  |  |  |  |  |  |
|               | Product distribution optimised by setting up local distribution centres   |  |  |  |  |  |
| Installation  | The product does not require special installation procedure and requires little to no energy to install. The disposal of the packaging materials are accounted for during the installation phase (including transport to disposal). |  |  |  |  |  |
| Use           | The product does not require special maintenance operations.  |  |  |  |  |  |
|               | End of life optimized to decrease the amount of waste and allow recovery of the product components and materials  |  |  |  |  |  |
| End of life   | No special end-of-life treatment required. According to countries' practices this product can enter the usual end-of-life treatment process.  |  |  |  |  |  |
|               | Recyclability potential:  Based on "ECO'DEEE recyclability and recoverability calculation method"  (version V1, 20 Sep. 2008 presented to the French Agency for Environment and Energy Management: ADEME).                          |  |  |  |  |  |

## **Environmental impacts**

| Reference life time                 | 20 years   |              |     |             |  |  |
|-------------------------------------|--|--------------|-----|-------------|--|--|
| Product category                    | Enclosures   |              |     |             |  |  |
| Installation elements               | No special components needed   |              |     |             |  |  |
| Use scenario                        | This product does not have any energy consumption  |              |     |             |  |  |
| Geographical representativeness     | Europe   |              |     |             |  |  |
| Technological<br>representativeness | The main purpose of the product is to integrate and to allow the fixing of electric or electronical devices as power current, switches, transformers, fuses or similar. <sup>\*</sup> represents less than 0.01% of the total life cycle of the reference flow

Life cycle assessment performed with EIME version EIME v5.5, database version 2015-04.

#### SCHN-00099-V01.01-EN - PEP ECOPASSPORT® - THALASSA PLM

The manufacturing phase is the life cycle phase which has the greatest impact on the majority of environmental indicators (based on compulsory indicators).

Please note that the values given above are only valid within the context specified and cannot be used directly to draw up the environmental assessment of an installation.

 Registration N°
 SCHN-00099-V01.01-EN
 Drafting rules
 PCR-ed3-EN-2015 04 02

 Verifier accreditation N°
 VH25
 Supplemented by
 PSR-0005-ed2-EN-2016 03 29

 Date of issue
 10/2016
 Information and reference documents
