

Breather Sealing Plug

for ZBENY DC Isolator

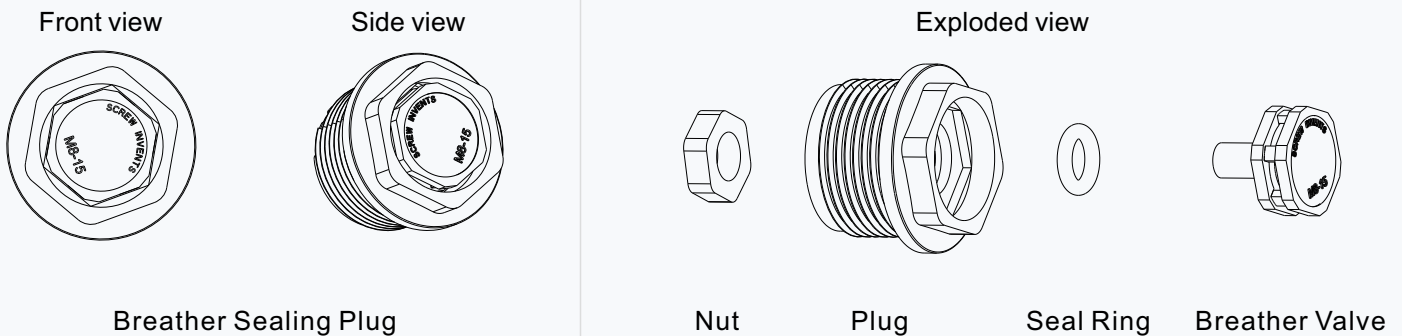

Features:

The high permeable gas can reduce the application force of the sealing strip through the balance pressure. The protective film of the hydrophobic and oil repellent structure is embedded in the plastic shell, which has the characteristics of inertia, single, anti-chemical and anti-ultraviolet.

Technical Specifications

Item	Breather Sealing Plug	
Thread	M8*1.25	
OD of thread	8mm	
Air permeability	150-350	
Ingress protection	IP66	
Material	Sealing plug	PC
	Breathing valve	Nylon 66
Inlet water pressure	>5bar	
Working temperature	Static state	-50°C
	Instaneous heat resistance	up to 120°C
UV Resistance	Yes
