

# EzyStrut

Cable & Pipe Supports

# Introducing the NEW EzyClamp

The EzyClamp is a quick and easy clamping system that interlocks with Ezystrut channel of varying heights. There is also a surface mount bracket option. Together, its application expands to all industries listed below:

- Air-conditioning and refrigeration piping
- Solar piping
- Plumbing
- Electrical
- Hydraulic piping
- Irrigation
- Gas piping
- DIY household applications
- Lightning protection

Surface mount bracket

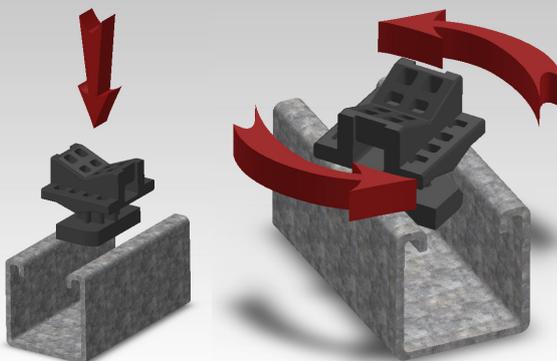

Description	Part No.
EzyClamp	EzyClamp
EzyClamp with surface mount bracket	EzyClampSB

Varying diameters

## VERSATILE, DURABLE AND TIME-SAVING

### EASY INSTALLATION

Lock your clamping solution without the use of any tools:

1. **Twist** EzyClamp anti-clockwise
2. **Place** component\* (tube, pipe, cable etc) into "V" section
3. **Strap** component with tie down strap\* of choice (maximum width 10mm).

\*supplied separately

### TECHNICAL SPECIFICATIONS

**Material:** Nylon grade 6 / 30% glass fill / UV Stabilizers.

**Colour:** Black

**Shear strength:** 700 kg.

**Clamping Diameter:** 9.5mm to 127mm

**Max. temperatures:** 300 °C

**Resistance:** Acid & 95% most common chemicals exposed in industrial and commercial environments.

**UV resistance:** 15 – 20 years (in outdoor exposed environments).
